### ABOUT

The virtual exhibition **GEBURT\_to animate** investigates the inside of the functional female body as the cultural place of genesis – as a nest of conception and term carriage regarding new life. The biological gender constructions and their effects on social issues, conditions of procreation and natural or artificial birth is of interest. The biological development process of the human bodies can also be seen as a metaphor for artistic development processes and the variety of their results.

**While the human process of childbirth is accompanied by real blood, „Lifeblood“ flowing with the birth of art - an „animation“ of the thoughts.**

### WANTED

Artists and interested people are invited to submit contributions/concepts referring to the theme with possible focus on:

- the functional body, biological understanding of sex
- social construction of sex (Doing Gender)
- reproductive medicine
- birth as artistic-, social and cultural process
- .....

Submitters are also invited to refer to existing contributions of the VAGINAMUSEUM.at in order to create connections and interfaces which then can be reciprocally linked.
